The diagram shows a vertical cross-section of a wall assembly. From top to bottom, the layers are: a thick brown fibrous insulation layer, a thin orange and white patterned mesh layer, and a white plaster layer. A blue arrow points from the left towards the mesh layer. Two blue speech bubbles are positioned to the right of the wall. The top bubble is labeled 'Schallschutz' and points to the fibrous insulation layer. The bottom bubble is labeled 'Hagelschutz' and points to the mesh layer. A label on the left side of the wall reads: 'Vollwärmeschutz für umweltbewusste Bauherren', 'CAPARECT ÖKO-LINE', 'Caparect Hanfbaudämmplatte', 'Caparect Minera Carbon, 5 mm', 'Caparect Glaswolle', 'Caparect Putzgrund', 'Caparect Carbonfaser-Beplattung', and 'Die optimale Wärmelösung'. A small logo is in the top right corner of the slide.

Potential Schallschutz

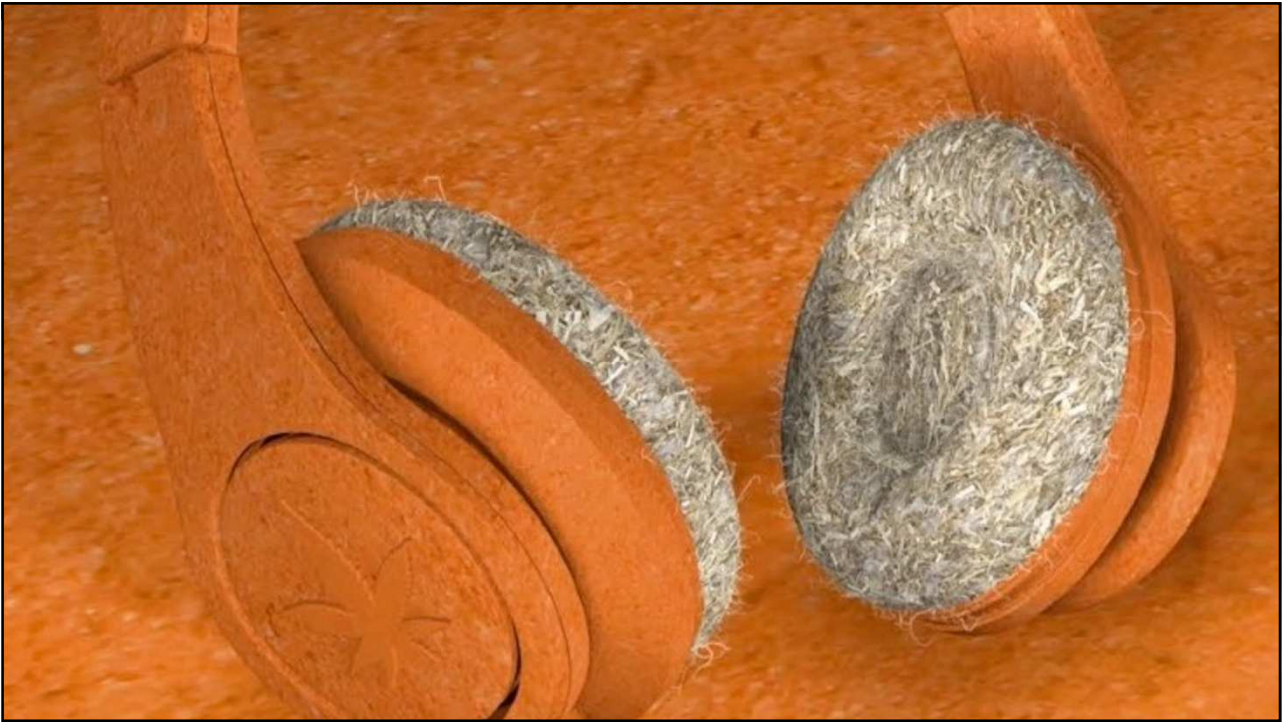

The slide features two main visual elements. On the left is a photograph of a woman in a pink top covering her ears with her hands, looking distressed, with a blurred background of a busy street. On the right is a diagram of a wall cross-section with a speaker icon and sound waves on the left side, labeled 'Außenwand'. The diagram shows a vertical wall section with a horizontal line representing a floor or ceiling, and another vertical line representing an adjacent wall.
